Hours: Wed. 8am-3pm
Sat. 8am-3pm

Hinckley Transfer Station Expands Services

Effective 4/1/18 the Transfer Station will be collecting all **batteries** at no charge. This includes rechargeable and single use (alkaline) batteries. Also, the Transfer Station will be accepting **yard waste**, excluding brush, as part of its new **composting** program. Brush collection may be coming in the future.

The transfer station also has revised its fee structure. Small quantities of trash will now be subject to a \$10 flat charge. Inquire with the Transfer Station for questions.

Household Hazardous Waste Collection Events up North

Do you have paint, automotive chemicals, household cleaners, or other such products stacked up in your basement? The Pine County HHW Facility is open Mid-May-September (see details in left sidebar) and offers free disposal of these products to Pine County households. New in 2018, the program will be going on the road and hosting collection events with free disposal of HHW.

Sandstone Event: Sat. June 30, 9am-3pm, Co Highway Garage, 1610 Hwy. 23 Sandstone

Willow River Event: Sat. Aug. 11, 9am-3pm, Co Highway Garage, 8165 Co Hwy 61, Willow River

Willow River Transfer Station Pilot Project Deemed a Success!

In summer 2017 Pine County piloted a small scale transfer station/recycling center in Willow River. The project was spurred by acknowledgement that Willow River is approximately 25 miles from the nearest transfer station, which makes it challenging for those residents to dispose of large bulky recyclables such as tires, appliances, etc. As of March 2018 the County is in pursuit of a new, larger, and more permanent home for the service.

Pine County Farmers are Recycling Ag Plastics

The recycling industry has been working for years on a way to recycle hay bale wrap and silage covers. Finally things have come to a head! Local farmers are currently working with Pine County Solid Waste Department on a pilot project to collect the material and transport it to a recycling facility in Sauk Centre, MN. Farmers interested in participating are encouraged to call the Solid Waste Dept.

Disposal and Recycling Guide

Anti-freeze— Hinckley Transfer Station,
Pine County HHW

Appliances— Hinckley Transfer Station
Salvage yards listed under "Automobiles"

Asbestos— ECSWC Mora Landfill. 320-679-4930
